

Keck-UWCCC Small Molecule Screening Facility Agreement

By using the Keck-UWCCC Small Molecule Screening Facility (the SCREENING FACILITY), I agree to be charged for the cost to the SCREENING FACILITY. This will include the cost for any disposables used for my screen and for Facility personnel time. I will provide a fund number to the SCREENING FACILITY that can be used to charge before the screen is initiated.

I recognize that the data I collect may be useful for purposes other than the immediate intent of the screen. Therefore I agree to deposit my screening protocol(s) and the data obtained from my screening project(s) into the internal SCREENING FACILITY database. I understand that the database and deposited data will be maintained in confidence within the SCREENING FACILITY. The data contained in the database will only be accessible to users who have entered their screening data into the database. I understand that access to data contained in the SCREENING FACILITY database will be supervised by SCREENING FACILITY staff on a facility computer and will be limited to data relevant to the User's screen(s).

I agree to share follow-up data with the SCREENING FACILITY (e.g. criteria for hit selection, lists of screening positives and cherry picks, lists of re-ordered compounds, and results of follow-up experiments) every 6 months, for entry into the internal SCREENING FACILITY database.

I agree that screening data and follow-up data may be used by the staff of the SCREENING FACILITY to help users, including myself, prioritize specific classes of hits, identify hits that are active in multiple assays, or suggest possible mechanisms of action for compounds. I understand that the data in internal SCREENING FACILITY databases may be examined for purposes of statistical comparison of the number of hits in different types of screens or different types of libraries.

I acknowledge that any data I access from another researcher's screen is received in confidence. I will not publically disclose such data unless it has been made public by the researcher or I have received written permission from the researcher to disclose such data. I will not publish or present results derived from another researcher's unpublished screen without permission. I will acknowledge other researchers appropriately if their work has contributed to a paper I write, or a presentation I give.

I will notify the SCREENING FACILITY if work performed in SCREENING FACILITY facilities results in a publication or patent. In oral presentations or publications, I will formally acknowledge by written citation or acknowledgement the contribution made by the SCREENING FACILITY and, if appropriate, specific SCREENING FACILITY personnel. I will provide the SCREENING FACILITY with copies of any manuscripts that cite the SCREENING FACILITY upon acceptance of those manuscripts for publication.
